Objective

Aspiring software engineer with a background in **full-stack web development** and a passion for building scalable, user-friendly applications. Excited to apply my skills in **JavaScript, React, Node.js, and APIs** to contribute to an engineering team and continue growing in a collaborative environment.

Technical Skills

- **Front-end:** HTML, CSS, JavaScript, React, jQuery, Bootstrap, Tailwind
- **Back-end:** Node.js, Express.js, RESTful APIs, npm
- **Databases:** MongoDB, PostgreSQL
- **Version Control:** Git, GitHub
- **Development Tools:** Visual Studio Code, Slack, Insomnia
- **Other:** Server-side integration, third-party APIs, UI/UX fundamentals

Projects

Lash Tech Booking App (*Full-Stack Application*)

💎💎 **Tech Stack:** MongoDB, Express.js, React, Node.js (MERN)

💎💎 **Description:** Designed and developed an online booking system for a lash tech business, allowing clients to book services in real-time.

💎💎 **Key Features:**

- Integrated **MongoDB** to store client and booking data.
- Built a RESTful API with **Express.js** for smooth data retrieval.
- Implemented a **React frontend** with Tailwind CSS for a seamless user experience.
- Debugged booking errors, improving system reliability.

Next steps include ongoing feature enhancements and performance improvements.

Experience

Store Manager | Skechers | San Antonio, TX (*Sept 2015 - May 2024*)

- Led a **high-performing team**, optimizing workflows and improving sales through

data-driven decision-making.

- **Increased sales year over year** by identifying trends and implementing strategic improvements.
- Developed **customer experience strategies** that boosted satisfaction and retention.
- Awarded **Store Manager of the Year (2019)** for outstanding leadership and problem-solving.
- Leveraged data tools for inventory and staff management, implementing time-saving processes that resulted in a more efficient work environment.
- **Transferred skills:** Analytical thinking, leadership, team collaboration, and data-driven decision-making.

Core Competencies

✓ Problem Solving | ✓ Strategic Planning | ✓ Communication | ✓ Analytical Thinking
✓ Time Management | ✓ Attention to Detail | ✓ Creativity

Education & Training

- **Web Development Bootcamp Graduate** *UTSA School of Data Science* ● Learned HTML, CSS, JavaScript, React, Node.js, MongoDB, and more ● Built real-world projects and continue refining them to enhance functionality and performance.
